

# Green Mountain Robotics Inc. - Team 885

## Release from Liability – Adult Form

Participation in the activities of Team 885 is exciting and educational. However, there are health and safety risks associated with these activities, where students and adults regularly work with machines, electronics, and other people!

The health and safety of team members is critically important to Green Mountain Robotics, Inc. and Green Team 885. To this end, we have created a Team 885 Safety Program. Fortunately, this Safety Program has worked well for Team 885 through the years. Unfortunately, no safety program can insure the absolute safety of all team participants at all times. Unsafe conditions or conduct can create hazardous and potentially dangerous situations that could result in serious injury. We are committed to avoiding these outcomes!

We therefore ask all adult team members to review the Safety Program with care. We also ask you to share any observations you have at any time to improve our Safety Program and improve the safety of our team!

The following documents (available at [frcteam885.com](http://frcteam885.com)) jointly form the basis of the Team 885 Safety Program:

1. *FIRST Youth Protection Policy (YPP),*
2. *Green Mountain Robotics YPP Policy,*
3. *Basic Machine Shop Safety, and*
4. *Workshop Rules - Team 885.*

The undersigned (the Member) has reviewed these materials and sought additional information from team mentors, if needed, in order to understand the Safety Program. The Member has also attended (or will attend) one of the Team 885 safety trainings, at which the Safety Program and tool and workshop safety were/will be discussed.

The Member has determined that the Safety Program is adequate and understands and assumes the risks associated with his/her participation in team activities. The Member's participation is at all times subject to the terms of the Safety Program and all rules established regarding conduct in the workshop.

The Member agrees not to hold Vermont Technical College, US FIRST, their agents or employees, or any Officer, Director, Adult Mentor, Parent, or other Member of Green Mountain Robotics Inc. liable for injury or illness resulting from his/her participation in team activities.

The Member also understands that if any machinery is damaged due to his/her negligence, he/she will be responsible for repairs.

The Member understands that team activities include local and out-of-town events. The Member understands that he/she is responsible for arranging transportation to team meetings, events, and competitions.

I understand and agree to the terms stated above:
